

GOLD PATH
YOUR JOURNEY TO SUCCESS
PAVED WITH EXCELLENCE

BOOST PRODUCTIVITY WITH **GEMINI** + N8N

Still using AI just to chat? We'll show you how to make AI work for you – automate emails, reports, and workflows with Gemini + n8n. No coding, just results.

ABOUT THE EVENT

This hands-on webinar will teach participants how to go beyond just chatting with AI tools like ChatGPT. Instead, they'll discover how to craft powerful prompts using Google Gemini, automate real business workflows without writing a single line of code, and connect AI with their daily work tools like Gmail, Google Sheets, and Slack using n8n.

In just 2 hours, attendees will walk away with the skills to:

- Summarize emails and reports using Gemini
- Trigger auto-responses and notifications
- Build AI agents that automate repetitive tasks
- Compare Gemini's output with other AI tools like ChatGPT, Copilot, and Claude – and see which one works best for specific business tasks

Perfect for professionals, SMEs, and business teams who want to **boost productivity using AI – without needing to be technical.**

If you're still only chatting with AI tools – you're missing out.

In this high-impact, hands-on webinar, you'll learn how to actually use Google Gemini to do your work – not just talk about it.

Discover how to:

- Write prompts that turn feedback into reports
- Build AI agents that automate meetings and emails
- Connect Gemini to Gmail, Sheets & Slack – no coding required
- Compare Gemini's power with ChatGPT, Copilot, and Claude

💡 *Plus, we'll show you how to design your own mini AI workflow with n8n – even if you're not technical.*

This isn't just another AI talk. This is a do-it-now, apply-tomorrow session.

Virtual Webinar

10am – 12pm
03 NOVEMBER, 2025
